

Spool Converter Pro – Success Story

Caja de Jubilaciones y Pensiones Bancarias (Uruguay)

Caja de Jubilaciones y Pensiones Bancarias is a financial entity that administrates the mutual and pension funds corresponding to the group of people related with financial system of Uruguay.

Working for more than 80 years, it is an entity of reference at its country.

An entity like this, manage a huge volume of reports, for internal use and for sending to their affiliated people.

After an evaluation process of the different available tools in the market for iSeries/AS400 environment, the company decided to implement the SpoolFactory solution, Spool Converter Pro, for management, conversion and modernization of the reports of the company.

Álvaro Mato, Chief of Administrative Group, summarize the reasons to choose the SpoolFactory solution:

“Spool Converter Pro allows to us, in an easy way, to adapt all our iSeries/AS400 reports to PDF format, which is the format requested by our users. It is important to emphasize about it is easy to use and it is a powerful software.

At first moment, we used only to convert our reports to PDF. But after seeing what easy was to modernize our reports using logotype insertion, boxes and colours, and without requiring to modify the existing programs, we decided to perform a project to modernize our reports”

At the first phase, the company is performing the restyling of the internal reports of management and accounting.

For the second phase, they will perform the restyling of the reports that they send to their affiliated people.

As Álvaro Mato says: “Spool Converter Pro has allowed us to modernize our reports, increasing the satisfaction of our users”
