

Spool Converter Pro – Success Story Globalsoft (Turkey)

Globalsoft is a well known IT company which activity area is Oracle/JD Edwards ERP Consulting, Software Development for JD Edwards ERP package, Support and Training.

Searching for a spool conversion tool with supporting for Turkish alphabet, it became into a collaboration in order to develop the necessary adaptations of Spool Converter Pro for being compliance with AS400 Turkish market.

Nevzat Bakirci, Worldsoftware Development Director, explains the reasons to choose the SpoolFactory solution:

“Spool Converter Pro gives to us the possibility of offering to our customers a solution for spool conversion allowing the particularities of Turkish alphabet”

At the first phase, the company is testing the software for getting it will be compliance with Turkish alphabet.

For the next step, they will offer the software to their customers.

As Nevzat Bakirci says: “This software is very useful. We can convert any spool file of IBM AS/400 to EXCEL, PDF, XML, TEXT and HTML format easily. Also, Turkish characters supporting is a plus feature”
